

Excel Application Guide for Web Version

The screenshot displays the Microsoft Excel web application interface. The top ribbon includes tabs for File, Home, Insert, Share, Page Layout, Formulas, Data, Review, View, Automate, Help, Draw, and PivotTable. The Home tab is active, showing options for Font, Alignment, Number, Styles, Cells, Editing, and Add-ins. The Name Box indicates the active cell is B4, and the Formula Bar shows the value 91251.98. The worksheet grid shows a PivotTable with the following data:

Region	Sum of Revenue
West	91,252
South	93,848
East	108,276
North	141,660
Grand Total	435,036

A bar chart titled "Sales by Region" is displayed, showing the revenue for each region: West (91,252), South (93,848), East (108,276), and North (141,660). The PivotTable Fields task pane on the right shows the data source and the fields used in the PivotTable: Region (Rows) and Sum of Revenue (Values).

The interface also includes a File Info & Search bar, a Ribbon Tabs bar, a Name Box, a Formula Bar, a Worksheet/Grid area, a Worksheet Tabs bar, and a Status Bar.
